

Tell Me Now

(Original music and lyrics by pod 302A)

Chorus:

Tell me now,
Is you gon' stick with me until the end,
Cause I did some things that I'm sorry again,
Need you by my side.

Verse 1:

When you look around your life see who you can go vent to,
Ain't have my momma or my daddy nobody to vent to,
And everybody said I'm tripping, I've got trauma issues,
I've seen some stuff inside my life and it messed with my mentals.

So when you hug me babe don't let me go,
and I was walking in the rain without a coat,
and I was walking through the hood nowhere to go,
and I was walking through the hood nowhere to go.

I know my baby hold me down when I'm locked in the pen,
I fell in love with my own heart and I broke it again,
I'm thanking God for everything, thank you for a second chance,
I lost my freedom, got it back and lost it all again.

Who gon' be there when it's all over?
Who gon' be there when it's all over?
Who gon' be there when it's all over.
I'm gon' be there when it's all over.
